PROFILE SUMMARY

Motivated and detail-oriented UI/UX Designer with hands-on experience in interface design, wireframing, and design system creation. With 5 months of practical industry experience as a Product Designer Intern, I collaborated closely with Product Owners and Frontend Developers to ensure design consistency, user-centered improvements, and efficient workflow alignment. Currently a 4th-year BSIT student, continuously learning and improving skills in UI design, prototyping, and modern design tools. Passionate about creating intuitive, aesthetically consistent, and user-friendly interfaces.

EMPLOYMENT HISTORY

Product Designer Intern

RuralNet Inc., Cebu City
June – October (5 months)

Key Responsibilities:

- Designed layouts for multiple screens using **Figma**.

- Created **wireframes**, progressing through **Low-Fi, Mid-Fi, and High-Fi** prototypes.

- Collaborated with Product Owners to clarify user flows and requirements for each screen.

- Built a **Design System** including components, molecules, typography, hierarchy, and layout conventions for consistency.

- Designed **mobile-responsive versions** of existing web screens based on client requests.

- Used **Slack** for alignment and communication with cross-functional teams.

- Managed and completed assigned tasks using **Jira**, ensuring organized and timely delivery.

- Provided UI/UX-driven suggestions to improve workflow efficiency and enhance user experience.

EDUCATION

Bachelor of Science in Information Technology

Cebu Eastern College – Cebu City
4th Year College Student (Ongoing)

ADDITIONAL INFORMATION

- Originally from **Gawi, Oslob, Cebu**, currently residing in **Cebu City** for academic studies.

- **Date of Birth:** May 26, 2002

- **Nationality:** Filipino
